Baoyi Ouyang

Learning Designer · AI Builder

Cambridge, MA
baoyiouyang@gse.harvard.edu
baoyi-ouyang.vercel.app

Learning and experience designer who researches how people learn with AI and turns those insights into learner-centered tools, services, and prototypes, from user interviews and mapping to high-fidelity prototypes. Trilingual in English, Mandarin, and Cantonese, with study across China, the UK, and the US.

Education

Harvard Graduate School of Education · M.Ed., Learning Design, Innovation, and Technology — Cambridge, MA · Expected May 2027

- Coursework: Computing Through Verbs (Harvard GSD), Digital Fabrication and Making in Education, Teaching and Learning Lab, Vibe Coding

University College London (UCL) · BA Education Studies, First-Class Honours — London, UK · Sep 2023 – Jun 2026

- Coursework: Research Methods (Qualitative and Quantitative), Learning Sciences, Psychology of Behavior, Child Studies

Design & AI Projects

Personality and AI Scaffolding · BA Dissertation, UCL — Oct 2025 – May 2026

- Surveyed 99 university students across 8 countries and territories on conceptual, procedural, and metacognitive AI support across 4 academic tasks; analyzed in SPSS.
- Found that task demands shaped preferences more than personality, and translated the insight into design principles for flexible, learner-controlled AI tutors.

Social-Emotional Learning (SEL) Program Redesign · Harvard EASEL Lab, Learning Impact by Design — Sep 2026 – Present

- Apply an end-to-end service design process for after-school educators, from stakeholder interviews and mapping to prototyping.

Production Automation Workflow & AI Transcripts · Teaching and Learning Lab, HGSE — Sep 2026 – Present

- Build n8n workflows that automate educational media production, starting with AI-generated transcripts and a human review step.

Computing Through Verbs · Harvard GSD, Interaction Design — Sep 2026 – Present

- Translate one verb per week (peel, drag, run, submit) into high-fidelity Figma and Figma Make prototypes, refining flows and motion through usability testing.

Learning by Making · Digital Fabrication and Making in Education, HGSE — Sep 2026 – Present

- Prototype physical learning tools with laser cutting, 3D printing, sewing, and electronics, taking a final product from MVP through user testing to a December expo.

Personal Portfolio Website · Built with Claude Code and Astro — Oct 2026

- Redesigned and rebuilt my portfolio end to end, from information architecture to an accessible design system.

Experience

Yisum, Psychology Web Technology Platform · Operations and Research Development Intern — Guangzhou, China · Jun – Aug 2025

- Conducted competitive analysis of 60 psychology-training products, synthesizing user and market insights into product development recommendations.
- Used AI tools to structure 300+ instructor profiles into a searchable database the team used to identify and invite industry experts.

Aerosim (HK) Ltd., Aviation Educational Technology · Program Development and Training Intern — Hong Kong · Jul – Sep 2024

- Redesigned 8 training programs for learners from primary school to adult professionals, delivering a service framework and manual.
- Explored integrating flight simulators into programs to create interactive, experiential learning.

Leadership, Research & Media

Voices & Co., HGSE Student Media and Community · Co-Founder — Sep 2026 – Present

- Lead a 5-person team that produced 2 podcast episodes in its first month for 100+ campus listeners.
- Vibe-code event posters with ChatGPT, applying a consistent design system with accessibility in mind.

International Primary School Exchange Program · Founder and Project Manager — Nov 2024 – Mar 2026

- Built an education program for Chinese primary students end to end, coordinating partner schools from curriculum to launch.

Research Assistant to Prof. Stéphane Redonnet · Aviation Education Research, APAC — Sep – Dec 2024

- Shaped a mixed-methods design on how experiential learning builds secondary students' STEM engagement.

Content Creator · Independent vlogger, 3K+ followers across platforms — Aug 2026 – Present

- Plan, film, and edit vlogs end to end with CapCut and ChatCut, an AI editing agent.

Skills

User research: usability testing, user interviews, stakeholder mapping, surveys, competitive analysis, Qualtrics, SPSS

Experience & interaction design: Figma, Figma Make, Framer, high-fidelity prototyping, wireframing, user flows, design systems, accessibility

AI: Claude and ChatGPT (advanced, 4 years), vibe coding (Claude Code, ChatGPT, Framer), automation (n8n), AI agents (Meta Muse, ChatCut)

Learning design & making: ABC Learning Design, H5P, Articulate 360, laser cutting (CorelDRAW), 3D printing, CapCut, Canva, Procreate

Languages: Mandarin (native), Cantonese (native), English (fluent), Spanish (basic), Japanese (basic)
